Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

Pursuant to 37 CFR 1.56, 1.97 and 1.98, the attention of the Patent and Trademark Office is hereby directed to the references listed on the attached PTO/SB/08. It is respectfully requested that the information be expressly considered during the prosecution of this application, and that the references be made of record therein and appear among the "References Cited" on any patent to issue therefrom.

This Information Disclosure Statement is filed before the mailing date of a first Office Action on the merits as far as is known to the undersigned (37 CFR 1.97(b)(3)).

Applicant has not submitted copies of each cited U.S. patent and U.S. patent application as required by 37 CFR 1.98(a)(2)(i), amended October 2004, as the U.S. Patent and Trademark Office has waived this requirement for all U.S. patent applications. Applicant submits herewith copies of foreign and non-patents in accordance with 37 CFR 1.98(a)(2).

In accordance with 37 CFR 1.97(g), the filing of this Information Disclosure Statement shall not be construed to mean that a search has been made or that no other material information as defined in 37 CFR 1.56(a) exists. In accordance with 37 CFR 1.97(h), the filing of this Information Disclosure statement shall not be construed to be an admission that any patent, publication or other information referred to therein is "prior art" for this invention unless specifically designated as such.

It is submitted that the Information Disclosure Statement is in compliance with 37 CFR 1.98 and the Examiner is respectfully requested to consider the listed references.

Applicant believes no fee is due with this response. However, if a fee is due, the Director is hereby authorized to charge any deficiency in the fees filed, asserted to be filed or which should have been filed herewith (or with any paper hereafter filed in this application by this firm) to our Deposit Account No. 06-2380, under Order No. 63134/P001CP2/10309809.

Dear Shelly:

Please find enclosed an Information Disclosure Statement, Form PTO/SB/08, and front page of the references cited therein that we recently filed with the U.S. Patent and Trademark Office in connection with the above-referenced patent application. The art cited in this Information Disclosure Statement is all of the prior art of which we have knowledge. Please review the art cited in this Information Statement to confirm that we have included all relevant prior art that you are aware of at this time.

Please be advised that the duty to disclose relevant art with the Patent and Trademark Office continues throughout prosecution of an application (see attached Duty of Disclosure Requirements document for the disclosure requirements). If you are aware of any additional art, or become aware of any additional art, please send it to us immediately.

Special Note – Duty of Disclosure Requirements

Under U.S. law, each individual associated with the filing and prosecution of a U.S. patent application has a duty of candor and good faith in dealing with the U.S. Patent and Trademark Office (PTO). The duty of candor and good faith includes a duty to disclose to the PTO all information known to that individual to be “material to patentability.” Material information includes (1) prior art information, and (2) information which refutes, or is inconsistent with, arguments made to the PTO (37 CFR § 1.56). The duty of disclosure continues until the application issues as a patent. Failure to comply with the duty of disclosure may cause the patent to be unenforceable.

To comply with the duty of disclosure, it is necessary for you to provide us with copies of the following documents and information relating to the invention claimed in the application:

- all prior art patents and publications known to the inventor(s) and/or the assignee(s);
- all documents, including search reports, cited in counterpart applications in other countries, together with any readily available English-language translations of non-English-language documents;
- any documents and publications that subsequently become known to the inventor(s) and/or the assignee(s);
- information regarding sales, uses or public disclosures of the invention or products similar to the invention; and
- information concerning similar developments made by persons other than the inventor(s).

If the relevance of a document is not apparent from the drawings, please provide us with a short statement of its relevance.

The duty of disclosure relates to information concerning all U.S. and foreign patents, patent applications, and publications that involve subject matter similar to the invention claimed in the present case, including, but not limited to, patents and applications that are owned by the inventor(s) and/or the assignee(s). Further, if you are aware of any pending patent applications being handled by another firm, please provide us with copies of any material prior art patents and publications cited in those applications.

IDS Timing Requirements

Under current PTO regulations, an Information Disclosure Statement (IDS) regarding prior art documents and other information known at the time the application was filed should be submitted to the PTO either (i) within three months of the U.S. filing date, or (ii) before the first Office Action on the merits, whichever is later. Since it is difficult to predict when the first Office Action will be mailed, please send us the information discussed above within two months of the U.S. filing date, if possible.

All references cited in counterpart foreign applications should be forwarded to us for submission to the PTO within two months of their citation by the foreign patent office, to permit us to prepare and timely file an IDS within three months of the citation by the foreign patent office. Likewise, any reference or information which predates the filing of the U.S. application but was not found or noticed until after the application was filed should be forwarded to us within two months after the information is found to permit us to prepare and timely file an appropriate IDS. Failure to meet the foregoing timetables may necessitate payment of U.S. government fees to obtain consideration of the IDS (37 CFR § 1.97).
